Full Stack Development

Java Development

API Development

Data Scientist

Android Development

Cloud Development

Degrees: Post Graduation, Cloud Computing for Big Data, Lambton College
Bachelor of Engineering, Information Technology, GTU

TECHNOLOGIES

Java / Python	HTML / CSS	React Native / Flutter	JavaScript
React / Angular JS	Junit / Jest / Mockito	Node JS / Express	TypeScript
Visual Studio	MS Office	Scrum / Jira	MySQL / MongoDB
Azure / AWS	CI / CD	GraphQL	Github / Git / SVN
ElasticSearch	Redis / Redux	REST API	Android Studio / SDK

WORK HISTORY

Full Stack Software Developer, Consulero Inc. - Toronto, ON (09/2020 to Present)

- Extensive experience in **Web and Mobile apps development**.
- Designed and built flow diagram, interactive UI prototype using **Lucidchart** and **Figma**.
- Responsive UI development using **React JS, Redux, React Native**.
- Advanced analytical skills, in-depth knowledge of **Data Structure, Algorithms**, relational and non-relational databases, **API integration, JSON** parsing, Unit and Functional testing using **Jest, Puppeteer**.
- Developed, tested, deployed **Microservices** and **CI/CD pipelines** for 3 projects on Azure.
- Improved the page speed by 75% by finding out the areas of improvement and optimizing the existing code.
- Worked within an **agile** team and helped prioritize and scope feature requirement to ensure that the biggest impact features were worked on first.

Data Scientist Summer Student, RBC Royal Bank - Toronto, ON (05/2019 to 09/2019)

- Developed **full-stack web application** that processed analyzed and rendered data visually by using **JavaScript frameworks** and **Agile methodologies**.
- Integrated the data flow with the back-end server by **REST APIs** and **JSON**.
- Planned, wrote, debugged, and tested web applications.
- Efficiency increases by 15% by creating a new web-based executive-facing application for data visualization and metrics reporting.

Research Assistant, Lambton College - Toronto, ON (02/2018 to 07/2018)

- Investigated complex technical issues, regarding live streaming application using technical proposal.

Software Developer, eClinicalWorks India Pvt Ltd – Ahmedabad, GJ (02/2015 to 12/2017)

- Developed and managed **mobile applications** used **35K+** users.
- Participated in complete Software Development Life Cycle **SDLC** for proper analysis, software design, development, automated testing, deployment, enhancement of code.
- Followed up by testing user interface, errors with all possible inputs, debugging, publishing, technical documentation) of apps after project completion.
- Increased coding accuracy by 10% using pair programming techniques, design patterns, and best practices.

EDUCATION

Cloud Computing for Big Data, Lambton College - Toronto

Bachelor of Engineering, Information Technology, Gujarat Technological University

ADDITIONAL EXPERIENCE

➤ **Volunteering**

JDRF Micro Ride, RBC, Toronto

(2019)

- Raised \$200 for type 1 diabetes research.

➤ **Certifications**

Go Essential Training, LinkedIn Learning

(2020)

Blockchain Beyond Basics, LinkedIn Learning

(2019)

Python for Data Science, IBM Cognitive Class

(2018)

Oracle Certified Java Professional, Oracle

(2017)

Software Development Fundamentals, Microsoft

(2014)
